CORE STRENGTHS

- Problem solving
- Team collaboration
- Communication
- Attention to detail
- Time management
- Reliability

TECHNICAL SKILLS

- Frontend — React, JavaScript, HTML, CSS
- Backend — Java, Spring Boot, REST APIs
- Databases — MySQL, PostgreSQL, MongoDB
- Cloud / DevOps — AWS, Docker, Jenkins
- Developing — Cybersecurity, Cloud, AI / ML

CAREER INTERESTS

- Software Engineering
- Full-Stack Development
- Cloud & DevOps
- Cybersecurity
- AI / ML

REFERENCES

Available upon request.

WIYATHMA ANURADHI JAYASUNDARA

COMPUTER SCIENCE (HONS) UNDERGRADUATE

Software Engineering • Cloud & DevOps • Cybersecurity

PROFILE

Computer Science (Hons) undergraduate at the University of Sri Jayewardenepura with hands-on experience in software development and technology-focused projects. Experience includes full-stack development using React and Java Spring Boot, microservices, cloud technologies and CI/CD. Currently developing further skills in cybersecurity, cloud computing and AI/ML.

EDUCATION

- **BSc (Hons) in Computer Science** **2024 — Present**
University of Sri Jayewardenepura
 - ❖ Eligible to pursue the Special degree in Computer Science offered by the Department of Computer Science.
- **G.C.E. Advanced Level** **2022**
Central College, Kuliyaipitiya
- **G.C.E. Ordinary Level** **2018**
Saranath College, Kuliyaipitiya

EXPERIENCE

- **Employee** **Present**
Island First — Online MCQ Platform
 - Support the improvement and maintenance of the platform and contribute to platform-related tasks.
 - Work with the team to identify issues and practical solutions in a real-world technology environment.
- **Invigilator** **2 Years**
Wicherley International School — Colombo, Sri Lanka
 - Developed responsibility, reliability, attention to detail, communication and time-management skills.
 - Worked within established procedures while supporting examination activities.
- **Intern** **6 Months**
Bank of Ceylon (BOC) — Pannala, Sri Lanka
 - Completed a six-month internship after school, gaining early professional experience in a structured workplace environment.

SELECTED PROJECTS

- **Backhaul-Match — Microservices Logistics Platform**
Technologies: Java, Spring Boot, React, MySQL, Docker, Jenkins, JWT, Spring Cloud Gateway, Eureka, OSRM
Service-oriented platform connecting courier and fleet operations through a neutral, route-based matching platform. Implemented microservices with API Gateway, service discovery, authentication, database-per-service architecture and Jenkins CI/CD.
- **Airplane Management System — Individual Project**
Technologies: Java · Object-Oriented Programming
Individual software project applying object-oriented programming principles.
- **Farmhouse Database Management System — Team Project**
Technologies: HTML, CSS, PHP, MySQL
Designed the ER diagram, EER diagram and relational schema; developed the frontend using HTML/CSS and backend using PHP with a MySQL database.

LEADERSHIP & ACHIEVEMENTS

3rd Place — ML and AI Nexus Competition (Team)

Organised by the Stat Circle, University of Colombo.

- Contributed to Kaggle data analysis through final presentation, viva and rapid-fire Q&A, covering Causal Inference, Explainable AI (XAI) and machine learning.

Assistant Secretary, Organizing Committee — AURORA 2026

- Inter-University AI Ideathon / Conference conducted by the Computer Science Association.

IEEE Member

- Member of the IEEE at the University of Sri Jayewardenepura.

CERTIFICATIONS

- AWS Academy Graduate — Microservices and CI/CD Pipeline Builder (Training Badge)
- AWS Academy Graduate — Cloud Security Foundations (Training Badge)
- AWS Academy Graduate — Cloud Security Builder (Training Badge)
- AWS Academy Graduate — Cloud Foundations (Training Badge)

CAREER INTERESTS

Software Engineering, Full-Stack Development, Cloud & DevOps, Cybersecurity and AI/ML.

PROFESSIONAL FOCUS

Building practical software systems with a focus on backend engineering, microservices, cloud/DevOps and secure application development.
